Internship

A reminder: Instructions about the internship are available at the following [link](#)

Main information

- Deadline for the intermediate report: **April 27**
- Formatting guidelines are provided (Latex style)
- Guidelines about **honesty and plagiarism**

Intermediate report

The intermediate report focuses on:

- The description of the research problem and the objectives of the internship
- The description of the background information and the analysis of the state of the art
- The current status of the work: description of preliminary ideas, milestones (for example, testbed setup, prototype implementation)
- The plan for the full-time period
- The bibliography

The Technical Writing and Speaking course should help you with this task

- But your supervisors are not supposed to help you with the TWS submission!
